Hydraulic Modelling: An Introduction-Pavel Novak 2018-10-24 Modelling forms a vital part of all engineering design, yet many hydraulic engineers are not fully aware of the assumptions they make. These assumptions can have important consequences when choosing the best model to inform design decisions. Considering the advantages and limitations of both physical and mathematical methods, this book will help you identify the most appropriate form of analysis for the hydraulic engineering application in question. All models require the knowledge of their background, good data and careful interpretation and so this book also provides guidance on the range of accuracy to be expected of the model simulations and how they should be related to the prototype. Applications to models include: open channel systems closed conduit flows storm drainage systems estuaries coastal and nearshore structures hydraulic structures. This an invaluable guide for students and professionals.

Wandering Monks, Virgins, and Pilgrims-Maribel Dietz 2010-11-01 Religious travelers were a common sight in the Mediterranean world during Late Antiquity and the early Middle Ages. In fact, as Maribel Dietz finds in *Wandering Monks, Virgins, and Pilgrims*, this formative period in the history of Christianity witnessed an explosion of travel, as both men and women took to the roads, seeking spiritual meaning in a life of itinerancy. Much of this early Christian religious travel was not focused on a particular holy place, as in the pilgrimage of later centuries to Rome, Jerusalem, and Santiago de Compostela. Rather, the inspiration was more practical. Travel was a way of escaping hostility or social pressures or of visiting living and dead holy people. It was also a means of religious expression of homelessness and temporary exile. The wandering lifestyle mirrored an interior journey, an imitation of Christ and a commitment to the Christian ideal that an individual is only temporarily on this earth. Women were especially attracted to religious travel. In the centuries before the widespread cloistering of women, a life of itinerancy offered an alternative to marriage and a religious vocation in a society that excluded women from positions of spiritual leadership. Eventually, ascetic travel gave way to full-fledged pilgrimage. Dietz explores how and why religious travel and monasticism diverged and altered so greatly. She examines the importance of the Cluniac reform movement and the creation of the pilgrimage center of Santiago de Compostela in the emergence of a new model of religious travel: goal-centered, long-distance pilgrimage aimed not at monks but at the laity. *Wandering Monks, Virgins, and Pilgrims* is essential reading for those who study the history of monasticism, for it was in a monastic context that religious travel first claimed an essential place within Christianity. It will also be important for anyone interested in pilgrimage and the role of women in the history of Christianity.

The Written Poem-Rosemary Huisman 1998-01-01 This text discusses the visual and graphic conventions in contemporary poetry in English. It defines contemporary poetry and its historical construction as a 'seen object' and uses literary and social theory of the 1990s to facilitate the study. In examining how a poem is recognized, the interpretive conventions for reading it, and how the spatial arrangement on the page is meaningful for contemporary poetry, the text takes examples from individual poems. There is also a focus on changes in manuscript conventions from Old to Middle English poetry and the change from a social to a personal understanding of poetic meaning from the late 18th through the 19th century.

Power and Legitimacy-Peter L. Lindseth 2010 The implications of European integration for national democracy and constitutionalism are well known. Nevertheless, as the events of the last decade made clear, the EU's complex system of governance has been unable to achieve a democratic or constitutional legitimacy in its own right. In *Power and Legitimacy: Reconciling Europe and the Nation-State*, Peter L. Lindseth traces the roots of this paradox to integration's dependence on the postwar constitutional settlement of administrative governance on the national level. Supranational policymaking has relied on various forms of oversight from national constitutional bodies, following models that were first developed in the administrative state and then translated into the European context. These national oversight mechanisms (executive, legislative, and judicial) have over the last half-century developed to address the central disconnect in the integration process: between the need for supranational regulatory power, on the one hand, and the persistence of national constitutional legitimacy, on the other. In defining the ways European public law has sought to reconcile these two conflicting demands, Professor Lindseth lays the foundation for a better understanding of the "administrative, not constitutional" nature of European governance going forward.

Dealing with-Valérie Knoll 2012 The New York gallery American Fine Arts, Co.--whose name today is largely synonymous with that of its gallerist, Colin de Land (1955-2003)--represents a gallery practice in which a decided deviation from conventional models overlaps with successful activities within the framework of the art market. Today, American Fine Arts, Co. and de Land figure as uncontested projection screens for the desire for independence from or bohemian resistance against the dictate of the market. Particularly in retrospect, a consistent image of the gallery is not discernible. Faced with the obvious risk of romanticization, it appears all the more important to pursue an understanding of how American Fine Arts, Co. functioned as a gallery. This book was published on the occasion of the exhibition "Dealing with--Some Books, Visuals, and Works Related to American Fine Arts, Co." at Halle für Kunst Lüneburg and Kunstraum of Leuphana University of Lüneburg (May 28-July 7, 2011), which was developed by Valérie Knoll, Hannes Loichinger, Julia Moritz, and Magnus Schäfer. Contributors Andrea Fraser, Manfred Hermes, Karl Holmqvist and Tobias Kaspar, Isala Leaver-Yap, Jackie McAllister, James Meyer and Christian Philipp Müller, Magnus Schäfer, Axel John Wieder, Phillip Zach; a conversation between Colin de Land, Josef Strau, and Stephan Dillemath; and an introduction by Hannes Loichinger and Magnus Schäfer

A Study on the Theory of Production-A.R.Prasad 2005 Traditional theory of economics has been formulated in mathematical terms and an increasing application of mathematical methods to nearly every branch of economics is increasingly witnessed. Mathematical economics has become an integral part of the syllabi in economics at undergraduate and postgraduate levels. Students of economics are also becoming acquainted with mathematics and are learning to use it in economics. Several new textbooks on mathematical treatment of micro-economics have been published but they do scant justice to the beginners by devoting only a few pages to the economic analysis of mathematical formulation. The basic problem is that of teaching economics in mathematical terms. The present textbook is intended for students of economics who possess some knowledge of both economics and mathematics. The selection of topics are indicated by economists, rather than mathematical content and the order of presentation is in consonance with the prescribed syllabi of numerous Indian Universities for undergraduate and postgraduate levels. The book also aims at advanced undergraduate and postgraduate students in economics who often wish to find how mathematics contributes to the understanding of familiar concepts in the theory of production. The object, therefore, is to make the book a self-teaching device that a careful student can work through and master. This does not make classroom teaching unnecessary, but it is certainly going to reduce considerable teaching burden from the teachers shoulders. It is hoped that the comprehensive treatment of the material covered will provide the students with the necessary modern techniques and general theoretical framework with which to approach and analyse the phenomena of production theory in micro-economics.

For Truly to See Your Face-Lynne Hume Burgess 1996-05

Business-to-Business Marketing-Ross Brennan 2010-10-20 The Second Edition of this bestselling B2B marketing textbook offers the same accessible clarity of insight, combined with updated and engaging examples. Each chapter contains a detailed case study to further engage the reader with the topics examined. - Featuring updated case studies and a range of new examples. - Incorporating additional coverage of B2B branding and the B2B strategic marketing process, and issues of sustainability. - Extended coverage of Key Account Management - Online lecturer support including PowerPoint slides and key web links Drawing on their substantial experience of business-to-business marketing as practitioners, researchers and educators, the authors make this exciting and challenging area accessible to advanced undergraduate and to postgraduate students of marketing, management and business studies. Praise for the Second Edition: 'I found that the first edition of Brennan, Canning and McDowell's text was excellent for raising students' awareness and understanding of the most important concepts and phenomena associated with B2B marketing. The second edition should prove even more successful by using several new case studies and short 'snapshots' to illustrate possible solutions to common B2B marketing dilemmas, such as the design and delivery of business products and services, the selection of promotional tools and alternative routes to market. The new edition also deals clearly with complex issues such as inter-firm relationships and networks, e-B2B, logistics, supply chain management and B2B branding' - Michael Saren, Professor of Marketing, University of Leicester 'This textbook makes a unique contribution to business-to-business teaching; not only does it provide up-to-date cases and issues for discussion that reach to the heart of business-to-business marketing; it also brings in the latest academic debates and makes them both relevant and accessible to the readers. A fantastic addition to any library or course' - Dr Judy Zolkiewski, Senior Lecturer in Business-to-Business Marketing, Manchester Business School 'The advantage of the approach taken by Brennan and his colleagues is that this book manages to convey both the typical North American view of B2B marketing as the optimisation of a set of marketing mix variables, and the more emergent European view of B2B Marketing as being focused on the management of relationships between companies. This updated second edition sees the addition of a number of 'snapshots' in each chapter that bring the subject alive through the description of current examples, as well as some more expansive end-of-chapter case studies. It is truly a most welcome addition to the bookshelves of those students and faculty interested in this facet of marketing' - Peter Nauddé, Professor of Marketing, Manchester Business School 'The strength of this text lies in the interconnection of academic theory with real world examples. Special attention has been given to the role that relationships play within the Business-to-business environment, linking these to key concepts such as segmentation, targeting and marketing communications, which importantly encompasses the role personal selling as relationshipcommunications building and not just order taking. With good coverage of international cultural differences this is a valuable resource for both students of marketing and sales' - Andrew Whalley, Lecturer in Business-to-Business Marketing, Royal Holloway University of London 'The text provides an authoritative, up-to-date review of organisational strategy development and 'firmographic' market segmentation. It provides a comprehensive literature review and empiric examples through a range of relevant case studies. The approach to strategy formulation, ethics and corporate social responsibility are especially strong' - Stuart Challinor, Lecturer in Marketing, Newcastle University 'This revised second edition offers an excellent contemporary view of Business-to-Business Marketing. Refreshingly, the text is packed with an eclectic mix of largely European case studies that make for extremely interesting reading. It is a 'must read' for any undergraduate or postgraduate Marketing student' - Dr Jonathan Wilson, Senior Lecturer, Ashcroft International Business School, Anglia Ruskin University, Cambridge

The Goldworthy Trilogy-Graeme Goldworthy 2014-09-01 Combining three incredibly important books for the teaching of the church, The Goldworthy Trilogy offers a complete and comprehensive guide to understanding the gospel throughout the whole of Scripture. This collection, containing the hugely popular Gospel and Kingdom, Gospel and Witness, and The Gospel in Revelation, will be an essential guide to be used again and again for those who seek to understand the Bible in the light of who Jesus is. Those already acquainted with Goldworthy's work will be familiar with his pithy and engaging style. Straightforward in his approach, he looks at how the Bible can only be understood through the eyes of the gospel. From this base of interpretation, he studies the Old Testament and its application for today, Israel's wisdom literature and its role in the Christian life, and the purpose and contemporary relevance of the book of Revelation, while his knowledge of Old Testament idiom and structure enhances his writing. This trilogy follows the Bible chronologically to give the reader a complete overview of evangelical biblical interpretation, forming an essential one-stop reference that will last a lifetime.

One in a Million-Priscilla Shirer 2010-03-01 The Egyptians in Exodus 1 were intent on enslaving the Israelites, wearing them down so that God's chosen people would become disillusioned and not live up to their destiny. Of the original two million Israelites who received God's invitation to enter the Promised Land, only two actually entered it! Similarly, modern day Christians often hear and understand the promises of God each Sunday morning at church but then rarely choose to experience them in everyday life. In *One in a Million*, Bible teacher Priscilla Shirer invites us to change that pattern for good, living beyond our circumstances and expecting to see God move in miraculous ways day after day. Without a doubt, we can find and follow God's purpose for our journey. We can make it to the Promised Land!

Faku-Timothy J. Stapleton 2006-01-01 From roughly 1818 to 1867, Faku was ruler of the Mpondo Kingdom located in what is now the north-east section of the Eastern Cape, South Africa. Because of Faku's legacy, the Mpondo Kingdom became the last African state in Southern Africa to fall under colonial rule. When his father died, Faku inherited his power. In a period of intense raiding, migration and state formation, he transformed the Mpondo polity from a loosely organized constellation of tributary groups to a centralized and populous state with effective military capabilities and a prosperous agricultural foundation. In 1830, Faku allowed Wesleyan missionaries to establish a station within his kingdom and they became his main channel of communication with the Cape Colony, and later Natal. Ironically, he never showed any serious inclination to convert to Christianity. From the 1840s to early 1850s, this Mpondo king played a central, yet often understated, role in the British colonization of South Africa. While over the years his territory and power declined, Faku remained quite astute in diplomatic negotiations with colonial officials and used his missionary connections to optimum advantage. Timothy J. Stapleton's narrative and use of oral history paint a clear and remarkable portrait of Faku and how he was able to manipulate missionaries, neighbors, colonists and circumstances to achieve his objectives. As a result, Faku: Rulehship and Colonialism in the Mpondo Kingdom (c.1780-1867) helps illuminate the history of the entire Cape region.

Kristin Hannah's The Nightingale-Honest Reviews Staff 2015-06-25 A Novel by Kristin Hannah | Summary & Analysis This book has two main characters, although a number of other characters feature quite significantly. Time spans 1939 to 1995 and place switches back and forth between wartime France and Oregon, USA in 1995. Vianne and Isabelle are two French sisters, one in her late twenties and the other aged 18 years old in 1939 at the very beginning of World War II in Europe. "The Nightingale" is both of their stories, as they describe in turn how they each found out, during the course of World War II, who they wanted to be, as well as who they were and what they would do to survive. The two sisters have had a very up and down relationship prior to 1939. Julien, their father, came back from World War I a changed man, and the premature death of his wife and their Maman did not help his recovery. After his wife's death he deposits the two girls, 14 year old Vianne and 4 year old Isabelle with the housekeeper at Le Jardin, his family's ancestral home in the French countryside. He returns to Paris to another family owned apartment where he continues to mourns his loss alone, whilst running an intellectual bookshop. He shuts the two girls out of his life. Vianne meets Antoine, her one true love, marries early and is a mother by 17, ever since running Le Jardin as its mistress. Isabelle is sent to boarding school at 7 and she copes with her mother's loss and rejection by her father, by rebelling and being thrown out of many schools. The book is also about love in all its forms: the love of parents for their children, the love between sisters, the love between friends and the love between two lovers. The two sisters both contribute in their own way, to help fight against the oppression of the Nazis - Isabelle becomes a member of the Free France resistance and Vianne helps hide Jewish children in a Catholic orphanage from the Nazis. Both of them find unexpected inner strengths in order to deal with the challenges they face in order to survive during World War II. They also discover people are not always black and white, and unexpected goodness is found, even in wartime. Or maybe because of wartime.

Cookie!-Jan Verwoert 2014-09-05 If we don't merely reduce art to clever code play in the arenas of representation, how do we speak about what is at stake? In response to this question, Verwoert addresses the forces at the heart of the tragicomedy that making, showing, and critiquing art implicates us in. He honors the basic joys of turning one thing into another, and the miracles of rhythm and rhyme that characterize the residual level of mimetic magic in art. In this key, the unverifiable is practiced daily: bodies are remade, feelings transfigured. As Alina Szapocznikow wrote, the mouth chews and out comes sculpture. Verwoert's 'COOKIE!' renders visible the endless emotional labor of setting the stage (for others), poses the thorny question of whether there could ever be a labor union for con-artists (like us), and gestures toward an ethics of disappointment to battle false expectations and as a way to come to terms with the fact that, no matter how you look at it, criticism hurts.
