Authors include: David Hatcher Childress, Joseph Jochmans, John Major Jenkins, Deanna Emerson, Katherine Routledge, Alexander Horvat, Greg Deyermenjian. Dr Marc Miller and others. Articles in the book include
Ancient Geography - Duane W. Roller 2015-08-27

The last dedicated book on ancient geography was published more than sixty years ago. Since then new texts have appeared (such as the Artemidoros palimpsest), and new editions of existing texts (by geographical authorities who include Agatharchides, Eratosthenes, Pseudo-Skylax and Strabo) have been produced. There has been much archaeological research, especially at the perimeters of the Greek world, and a more accurate understanding of ancient geography and geographers has emerged. The topic is therefore overdue a fresh and sustained treatment. In offering precisely that, Duane Roller explores important topics like knowledge of the world in the Bronze Age and Archaic periods; Greek expansion into the Black Sea and the West; the Pythagorean concept of the earth as a globe; the invention of geography as a discipline by Eratosthenes; Polybios the explorer; Strabo’s famous Geographica; the travels of Alexander the Great; Roman geography; Ptolemy and late antiquity; and the cultural reawakening of antique geographical knowledge in the Renaissance, including Columbus’ use of ancient sources.

Prentice Hall World History - Elisabeth Gaynor Ellis 2014

Explorers - Nellie Huang 2019-09-03

Live and see the world through the eyes of 50 of the world’s greatest explorers and their trusty companions! This book for kids is brimming with first-person accounts of gripping adventures in explorers’ own words. Find exciting tales complemented by rare maps, specially commissioned photographs, and artworks that re-create history's greatest expeditions. Get ready to take a leap into the unknown... An adventure book that will surely rival even the most thrilling adventure movies! You'll meet some of the most famous explorers and adventurers of all time in this exciting non-fiction storybook for children. Great explorers have one thing in common - a desire to leap into the unknown, no matter the dangers it presents. This book will take you through Ferdinand Magellan’s first circumnavigation of the world 500 years ago to Barbara Hillary’s treks to the North and South poles while in her seventies, and beyond. This knowledge book documents the stories of men and women who rewrote our understanding of the world and inspired us by pushing the boundaries of human capability. A kid’s educational book that looks at the towering achievements of more than 50 explorers from all walks of life in great detail. See sensational cross-sections revealing the amazing detail inside Spanish galleons, lost cities, and spaceships. Magnificent photographs highlight the artifacts and relics they found along the way, while hand-drawn maps reveal their intrepid journeys in such detail, you feel as though you could be walking in their very footsteps. It is a glorious introduction to history’s most famous trailblazers - people whose courage opened frontiers turned voids into maps, forged nations, connected cultures, and added to humankind's knowledge of the world by leaps and bounds. Packed with jaw-dropping fun facts about the world and written so beautifully it will get your heart racing. Explorers is the perfect kid's book for any young mind with an avid sense of adventure! Explore Unknown Waters - Take To The Skies - Investigate Our Planet! For centuries, explorers have been unable to resist the secrets of the sea. We have looked toward the skies and stars since the beginning of time. Through dense jungles, dry deserts, and frozen mountains we have pushed the very limits of human endurance in the name of exploration and adventure! These tales are not for the faint of heart - these adventurers faced challenges that threatened their very survival! Their courage has allowed us to collect a wealth of knowledge about our awe-inspiring universe. Set sail to faraway frozen lands, defy gravity and take to the skies, and investigate our planet through the stories of those who came before us. Happy exploring! Learn about the explorers who defied the so-called possibilities of their time in: - Sea & Ice - Air & Space - And Land

Science in the Ancient World - Russell M. Lawson 2004 The first A-Z resource to catalog the achievements and legacy of more than four millennia of scientific thought in the ancient world of the Mediterranean and the Near East, providing a complete overview of the physical, chemical, life, medical, and social sciences of the classical world. A complete bibliography of primary source documents, secondary source biographies, and critical analyses * 50 illustrations including maps, portraits of the key scientific figures, and depictions of scientific instruments and phenomena

The Wayfinders - Wade Davis 2009 Many of us are alarmed by the accelerating rates of extinction of plants and animals. But how many of us know that human cultures are going extinct at an even more shocking rate? While biologists estimate that 18 percent of mammals and 11 percent of birds are threatened, and botanists anticipate the loss of 8 percent of flora, anthropologists predict that fully 50 percent of the 7,000 languages spoken around the world today will disappear within our lifetimes. And languages are merely the canaries in the coal mine: what of the knowledge, stories, songs, and ways of seeing encoded in these voices? In The Wayfinders, Wade Davis offers a gripping and enlightening account of this urgent crisis. He leads us on a fascinating tour through a handful of indigenous cultures, describing the worldviews they represent and reminding us of the encroaching danger to humankind's survival should they vanish.
World Explorers Gr. 4-6 - Ruth Solski

Ancient Egypt Explorer - Philip Steele 2009-07-15 Introduces the rituals of ancient Egypt, including the role of the pharaoh, the reverence of the dead, and the monuments erected for famous rulers that still stand today.
