**Towards a Better World**-Stephanie Claire 2020-02-01 Set in 1920s Sydney, the heyday of Theosophy and other 'new religions', Towards a Better World explores a time bursting with new and exciting ideas - but also with rumours concerning clergy and young boys. Based on family stories and careful research, Stephanie Claire tells the story of a group of young Theosophists and their new friend Ed Best, who mix in a heady world featuring luminaries such as activist and orator Annie Besant, 'new world Teacher', Krishnamirty, and the dominating figure of Bishop Charles Leadbeater, resident at The Manor in Mosman, Sydney, where ideals and realities may collide. Stephanie Claire's literary output includes biographies, children's books, radio programs and short stories.

**Oneonta**-Gene Milener 2021-01-27 Oneonta is the only city in the large Central New York counties of Otsego, Delaware, and Schoharie. The earliest settlers in 1780 knew the place as a "dammed hemlock swamp." By 1930, it had become an established regional metropolis towering over all area localities. Oneonta is an exciting story, and this comprehensive book is a unique treasure. The big stories are all there, such as the turnpikes, Albany and Susquehanna Railroad, D&H, cigar rolling, normal school, Hartwick College, and more. Yet so are accounts of sidewalks, cemeteries, boardinghouses, Barn Hill, charity, piano manufacturer, and many others. Maybe more important still was the predominant thought about business affairs. There is much on that too. With rich detail and over 350 heavily annotated pictures, those 150 years to the Great Depression are described as never before and, most likely, never again.

**Medicine, Faith and Politics in Agogo**-Pascal Schmid 2018-03-03 Medicine, Faith and Politics in Agogo examines the development of health care delivery at a former mission hospital in

Ghana. It reveals the configurations of interests, values, and ideologies that shaped the development and implementation of health care practices, strategies, and concepts. By providing an in-depth analysis, the book contributes a particular perspective on the history of health care delivery in rural Africa and beyond. It addresses topics that are still heavily under-researched. These include the 'decolonisation' of health care as well as the development and implementation of medical concepts for 'developing countries' such as primary health care. Dissertation. **Norbert Wiener#A Life in Cybernetics**-Norbert Wiener 2018-03-23 Norbert Wiener's celebrated autobiography, available for the first time in one volume. Norbert Wiener—A Life in Cybernetics combines for the first time the two volumes of Norbert Wiener's celebrated autobiography. Published at the height of public enthusiasm for cybernetics—when it was taken up by scientists, engineers, science fiction writers, artists, and musicians—Ex-Prodigy (1953) and I Am a Mathematician (1956) received attention from both scholarly and mainstream publications, garnering reviews and publicity in outlets that ranged from the New York Times and New York Post to the Virginia Quarterly Review. Norbert Wiener was a mathematician with extraordinarily broad interests. The son of a Harvard professor of Slavic languages, Wiener was reading Dante and Darwin at seven, graduated from Tufts at fourteen, and received a PhD from Harvard at eighteen. He joined MIT's Department of Mathematics in 1919, where he remained until his death in 1964 at sixty-nine. In Ex-Prodigy, Wiener offers an emotionally raw account of being raised as a child prodigy by an overbearing father. In I Am a Mathematician, Wiener describes his research at MIT and how he established the foundations for the multidisciplinary field of cybernetics and the theory of feedback systems. This volume makes available the essence of Wiener's life and thought to a new generation of readers.

**Jack of All Trades**-Peter Inchbald 2013-11-01  
Born into privilege, Peter Inchbald was an intellectual who spent the latter part of World War II as an Army Captain and the sole white man for miles around in the foothills of the Karakorums and the Himalaya. He became a minor artist of the postwar era before becoming an equally minor industrialist who helped bring modern design to the silverware and cutlery trade. Later in life he published a series of detective stories. There are really three books in here. The first is a personal memoir, the second a family history - an Appendix provides several family trees. The third is a serious record, full of fascinating historical detail. Inchbald wrote his memoir for many kinds of reader, from those who knew him intimately to distant cousins who had never heard of him and people, some not yet born, to whom he is a dim figure from the past.

**The Oxford Companion to American Theatre**-Gerald Bordman 2004-05-06  
First published in 1984, Gerald Bordman's Oxford Companion to American Theatre is the standard one-volume source on our national theatre. Critics have hailed its "wealth of authoritative information" (Back Stage), its "fascinating picture of the volatile American stage" (The Guardian), and its "well-chosen, illuminating facts" (Newsday). Now thoroughly revised, this distinguished volume once again provides an up-to-date guide to the American stage from its beginnings to the present. Completely updated by theater

professor Thomas Hischak, the volume includes playwrights, plays, actors, directors, producers, songwriters, famous playhouses, dramatic movements, and much more. The book covers not only classic works (such as Death of a Salesman) but also many commercially successful plays (such as Getting Gertie's Garter), plus entries on foreign figures that have influenced our dramatic development (from Shakespeare to Beckett and Pinter). New entries include recent plays such as Angels in America and Six Degrees of Separation, performers such as Eric Bogosian and Bill Irwin, playwrights like David Henry Hwang and Wendy Wasserstein, and relevant developments and issues including AIDS in American theatre, theatrical producing by Disney, and the rise in solo performance. Accessible and authoritative, this valuable A-Z reference is ideal not only for students and scholars of theater, but everyone with a passion for the stage.

**Young Las Vegas**-Joan Burkhart Whitely 2005  
The Las Vegas we know was conceived - if anybody really conceived it - in 1931, when Nevada liberalized its divorce and gambling laws, which would ultimately transform the city into America's playground for grown-ups. It was also the year an unprecedented engineering project began, that would turn the Colorado River from a wild killer stream to a wild reservoir that waters not only California vegetables but also sprawling Las Vegas suburbs. From 1905 to 1931, Las Vegas was still a tiny oasis in a big, dangerous desert. Its isolated people made their own swamp coolers, their own entertainment and sometimes their own whiskey. The author, Joan Burkhart Whitely, enlisted older Las Vegans to help capture the memories of a Mojave Mayberry where neighbors took care of each other, not merely because no one else would, but because it was their hometown, and they cared.

**My Footprint**-Marie Dicker Haas 2019-01-16  
Marie Dicker Haas knew how to make friends and keep them—and being connected to others was what she treasured most. In this memoir, her spirit shines through, as do her philosophies on life, which she developed over more than 90 years before her death in 2017. From her formative days growing up on Staten Island, New York, to her years at Cornell University, through the World War II years, and on to life as it unfolded, she writes with a thoughtful, creative style. She writes courageously of her loves,

including the death of Sammy Greenwald during World War II, which she writes "affected me more profoundly than any other event I had experienced until that time." He had been born next door, and he'd always been in her life. Years later, Marie eloped with a concert violinist who melodiously transformed her life for the next twenty-five years, and two children gave her the opportunity to experience one of her greatest joys: motherhood. She also shares lessons from her greatest challenges.

**Change and Continuity**-Kathleen E. Barker 2021-06-15 St. Stephen's Girls' College is one of the many schools run under the auspices of the Anglican Church in Hong Kong. As one of the earliest schools for girls in the territory, St. Stephen's played a significant role in the opening up of educational opportunities for Chinese girls. This book records the history and development of the school and is written for its 90th Anniversary, using much original source material. The author, who was head of the school for over thirty years, has set this history within the educational, social and political context of the times."

**Little Strangers**-Claudia Nelson 2003-05-13 When Massachusetts passed America's first comprehensive adoption law in 1851, the usual motive for taking in an unrelated child was presumed to be the need for cheap labor. But by 1929 -- the first year that every state had an adoption law -- the adoptee's main function was

seen as emotional. *Little Strangers* examines the representations of adoption and foster care produced over the intervening years. Claudia Nelson argues that adoption texts reflect changing attitudes toward many important social issues, including immigration and poverty, heredity and environment, individuality and citizenship, gender, and the family. She examines orphan fiction for children, magazine stories and articles, legal writings, social work conference proceedings, and discussions of heredity and child psychology. Nelson's ambitious scope provides for an analysis of the extent to which specialist and mainstream adoption discourse overlapped, as well as the ways in which adoption and foster care had captivated the public imagination.

**Che, My Brother**-Juan Martin Guevara 2017-04-21 On 9 October 1967, Ernesto Che Guevara, Marxist guerrilla leader and hero of the Cuban Revolution, was captured and executed by Bolivian forces. When the Guevara family learned from the front pages that Che was dead, they decided to say nothing. Fifty years on, his younger brother, Juan Martin, breaks the silence to narrate his intimate memories and share with us his views of the character behind one of history's most iconic figures. Juan Martin brings Che back to life, as a caring and protective older brother. Alongside the many practical jokes and escapades they undertook together, Juan Martin also relates the two extraordinary months he spent with the Comandante in 1959, in Havana, at the epicentre of the Cuban Revolution. He remembers Che as an idealist and adventurer and also as a committed intellectual. And he tells us of their parents - eccentric, cultivated, bohemian - and of their brothers and sisters, all of whom played a part in his political awakening. This unique autobiographical account sheds new light on a figure who continues to be revered as a symbol of revolutionary action and who remains a source of inspiration for many who believe that the struggle for a better world is not in vain.
