Design your game - Google for Games

Build immersive real-world games with Google Maps Platform. Drive your players to real-world locations all over the globe. Deepen gameplay by adding layers of detail to games with Google Maps Platform. From New York to Tokyo, you can build your game utilizing high-quality data — including information on over 100 million 3D buildings, roads, landmarks, and parks.

The 50 Q Question: Impedance Matching in RF Design | Real world design process would be seriously simpler if engineers had to modify every component and specify the dimensions of every microstrip according to the one impedance chosen as the basis for all the others. Also, this dimension is the one impedance that has already reached the PCB stage.

Real Cake Maker 3D Bakery - Apps on Google Play

Be the world’s finest cake baker - bake the creamiest cakes in this cooking game! Real Cake Maker 3D Bakery. Coco Play By Tabtalike Simulation. Test. 203,493. > Use professional baker tools to bake, design & decorate the most delicious cakes!

Large real-world study: Pfizer’s COVID vaccine is safe

As of December 13, 2021, the U.S. Food and Drug Administration (FDA) has authorized Pfizer’s COVID-19 vaccine for use in adolescents and young adults aged 12 to 15 years. The data were used for the approval of the vaccine. The vaccine was approved based on a recent real-world study of Pfizer’s COVID-19 vaccine in adolescents and young adults aged 12 to 15 years. The study results showed that the vaccine was safe and effective in this age group. The study was conducted in the United States and included over 100,000 participants. The results showed that the vaccine was safe and effective in preventing COVID-19 in adolescents and young adults aged 12 to 15 years.

Safe and linked to substantially fewer adverse events than SARS-CoV-2 infection in unvaccinated patients. A team led by Dr. Marc R. Meier and colleagues at the University of Bern and the University Hospital of Bern, Switzerland, conducted a large real-world study to assess the safety and efficacy of Pfizer’s COVID-19 vaccine in adolescents and young adults aged 12 to 15 years.
