Virgil’s Aeneid Retold for Young Adults—Frank Hering 2019-08-08 Free Kindle Version With the purchase of a new Amazon Paperback Edition. After ten years of flight, he learns that the Greeks have accepted the challenge of the Trojans and that the city of Troy is on the point of being destroyed. The son of the goddess Venus, Aeneas, knows he must build the city that will one day become Rome. Over two thousand years ago, the Roman poet Virgil wrote the epic chronicling this Trojan hero’s adventures and battles. While stories about the dictator of fate and almost gods helping their children may seem old-fashioned, the story still speaks to the issues of our times, war and peace, love and loss, duty and privilege, prestige and self-determination, the triumph of battles won and the tragedy of battles lost, new nations founded on land occupied by others and immigrants excluded by socialists. In the tradition of Black Ships Before Troy, Virgil’s Aeneid Retold for Young Adults brings the classic epic to a new generation of English readers. Presenting the order and majesty and characters of the original, this book makes the Aeneid accessible to readers unfamiliar with the grand poetic style and length of ancient epic. The author, who has taught high-school students since 2000, creates more realistic dialogues and shorter sections when students often get bogged down. Descriptions, particularly those of the battle scenes, seek to clarify parts of the original that are difficult to visualize. The occasional inclusion of an oft-used phrase from epic poetry helps to preserve the tone and atmosphere of the Aeneid. The book also helps to obscure details helps to bring the ancient epic to life, giving us a new understanding of the world in which it was written.

The Early History of Rome—Livy 2005-06-26 Livy’s impressive works cover the first 1200 years of Rome’s history, from the founding of Rome in 753 BC to the battle of on the Colline of Granicus in 496 BC. The history of Rome is one of the most brilliant makeovers ever undertaken by a ruler and his spin doctors. In North Africa, Amanirenas the warrior queen exploited her god-like status to destroy it. His visits to the Americas led him to argue that the indigenous peoples possessed ancient cultures with sophisticated languages, architecture, and art, and his expedition to Cuba prompted him to denounce slavery as “the greatest evil ever to have afflicted humanity.” To Humboldt, the premise of his prose was as important as its substance. Humboldt was one of the first to argue for the existence of independent indigenous peoples of the Americas, and in his works he includes studies of the cultures and customs of the Indians of the Americas, and in his works he includes studies of the cultures and customs of the Indians of the Americas. Among others—allow us the pleasure of reading his own accounts of his daring explorations. Humboldt’s writings profoundly influenced naturalists and poets including Darwin, Thomas, Muir, Goethe, Wordsworth, and Whitman. The Selected Writings is not only a tribute to Humboldt’s important role in environmental history and science, but also to his ability to have a powerful poetic narrative out of scientific observations.

Virgil and His Translators-Susanna Braun 2018-09-13 This is the first volume to offer a critical overview of the long and complicated history of translations of Virgil from the early modern period to the present day. Translating traditional studies of simple translations or particular national traditions in isolation to offer an insightful comparative perspective. The twenty-nine essays in the collection cover numerous European languages - from English, French, and German, to Greek, Irish, Italian, Norwegian, Spanish, and Swedish, but also well beyond Europe in terms of the discussions of Brazilian, Chinese, Esperanto, Finnish, and Russian translations of Virgil. While the opening two contributions lay down a broad theoretical and comparative framework, the majority conduct comparisons within a particular language and combine detailed case studies with in-depth contextualization and theoretical background, showing how the translations discussed are embedded in their own cultural and historical moments. The final two essays are written from the perspective of contemporary translators, closing not the volume with a profound assessment not only of the influence exerted by the major Roman poet on later literature, but also why translation of a canonical author such as Virgil matters, not only as a national and transnational cultural phenomenon, but as a personal engagement with a literature of enduring power and relevance.

Peace Talks-Andrew Motion 2015-11-07 The second half of Andrew Motion’s new collection returns to the sequences begun in Laurels and Donkeys, continuing the work of recognition won by the Wilfred Owen Poetry Award in 2014. These meditations on combat and the people caught up in it look back to conflicts of the past: to the ‘war to end all wars’; to Rupert Brooke on his final journey; to Wilfred Owen at Craiglockhart War Hospital; to Archduke Franz Ferdinand on the day of his fatal shooting. Motion also depicts the ravages of modern warfare through reported speech, redacted documents, and vivid expressions of place, his plain understatement bringing the magnitude of war home to our own shores. These poems are moving and measured, delicate and clear-eyed, and bear witness to the cruelty of war and the suffering of those left behind. Elsewhere we find biographies in miniature, dreams and visions, family histories, which in their range of forms and voices consider questions of identity, and character. These are poems of remembrance in which Motion’s war poems, all in their own way elegies, find a natural partner. Peace Talks is a wise and compassionate work.

Stung with Love: Poems and Fragments of Sappho-Sappho 2009-08-06 More or less 150 years after Homer’s Iliad, Sappho lived on the island of Lesbos, west of the coast of what is present Turkey. Little remains today of her writings but she had fled across the Aegean and written about her final love poems, which is composed of four fragments, all in which she is in love with a woman. In this collection of love poems, Sappho was the first woman to write a love poem from the perspective of a woman who would dare to express her love for another woman.
