Chicano School Failure and Success-Richard R. Valencia 2002 During the early 1990s - when this book’s first edition was published - the Chicano population in the USA numbered nearly 13 million (two thirds of its total Latino population). Indications were that school problems and conditions - which were already poor for these people - were worsening. A decade down the line, how has the situation changed? From various perspectives, the second edition of this respected work examines the school failure and success of Chicano students. For many two years there have prevailed: one being that institutional forces and structures that promote and maintain inequality are the root cause of these poor schooling conditions and outcomes; the other being a set of insidious assumptions steeped in racism. In recent years, however, scholarship has followed more constructive streams of thought. Two features characterise his new edition. Each contributor provides a comprehensive and state-of-the-art chapter; updated with a contemporary commentary on Chicano students. They also address the question of whether the educational status of the Chicano population will grow commensurately with its population.

The History of Special Education-Maprêt A. Water 1993 This comprehensive volume examines the facts, characters, and events that shaped this field in Western Europe, Canada, and the United States. From the first efforts to teach disabled people in early Christian and Medieval eras to such current mandates as Public Law 94-142, this study breaks new ground in assessing the development of special education as a formal discipline. “The History of Special Education” presents a four-part narrative that traces its emergence in fascinating detail from 16th-century Spain through the Age of Enlightenment in 17th-century France and England to 19th-century issues in Europe and North America of placement, curriculum, and early intervention. The status of teachers in the 19th century and social trends and the movement toward integration in 20th-century programs are considered as well. – From product description.

Mental Health-2001 These reports summarize the current state of what is known about various health and healthcare issues that affect the United States. An introductory chapter gives an overview of the report as a whole, along with a look at the science and preparation of the report. Along with the findings, reports may present directories of related resources.

Insights from Animal Reproduction-Nita Payan-Currier 2016-03-23 The chapters in this volume of “Insights from Animal Reproduction” address several, particular hot topics in the field of reproduction. The book begins with a comprehensive overview of the cryopreservation of sleep-producing embryos. The following chapter reviews assisted reproductive techniques available for South American wild mammals. Chapter 3 presents the technical procedures necessary to produce transgenic goats. Chapter 4 provides a comprehensive review of the major molecular determinants of litter size in rodent species. Chapter 5 examines the germ cell determinant transmission, segregation, and function using the zebrafish as a model for germ cell specification in the embryo. Chapter 6 summarizes the current understanding of the molecular and cellular mechanisms regulating the early stages of folliculogenesis. Chapter 7 examines the sperm motility regulatory proteins as a tool to enhance sperm quality in cryopreservation processes. Chapter 8 discusses contemporary knowledge on the effects of extremely low frequency magnetic fields (ELF-MF) on male reproductive function in rodents. Chapter 9 highlights the importance of the cytoskeletal evaluation in searching for causes of infertility of phenotypically normal animals, as well as individuals with a minimal sex development. The last chapter provides evidence that other uterine diseases may be hidden behind the clinical diagnosis of pyometra that in some case may have a poor outcome.

Diversity and Society-Joseph F. Healey 2019-07-04 Adapted from the bestselling Race, Ethnicity, Gender, and Class by Joseph F. Healey and Andi Stepnick, Diversity and Society provides a brief overview of inter-group relations in the U.S. In ten succinct chapters, Healey and Stepnick explain concepts and theories about dominant-minority relations; examine historical and contemporary immigration to the U.S.; and narrate the experiences of the largest racial and ethnic minorities. The Sixth Edition of this bestseller explores a variety of experiences within groups, paying particular attention to the intersection of gender with race and ethnicity. While the focus is on minority groups in the U.S., the text also includes comparative, cross-national coverage of group relations in other societies. Updated with the most current trends and patterns in inter-group relations, this text presents empirical data in an accessible format to show you how minorities are inseparable from the larger American experience.

The International Convention on the Elimination of All Forms of Racial Discrimination-Patrick Thorrbery 2020 This Oxford Commentary is the first comprehensive article-by-article analysis of the provisions of the Convention on the Elimination of All Forms of Racial Discrimination. It discusses the conceptual and instrumental framework of the Convention and the CERD Committee, and addresses some of the critical challenges confronting the Convention.

Tiley’s Revenue Law-Glen Loutzenhiser 2019-08-22 This is the ninth edition of John Tiley’s major text on revenue law, covering the UK tax system, income tax, capital gains tax and inheritance tax, as well as incorporating sections dealing with corporation tax, international and European tax, savings and charities. This new edition is fully revised and updated with the latest case law, statutory and other developments, including Finance Act 2019. The book is designed for law students taking the subject in the final year of their law degree, or for more advanced courses, and is intended to be of interest to all who enjoy tax law. Its purpose is not only to provide an account of the rules but also to include citation of the relevant literature from legal periodicals and some discussion of, or reference to, the background material in terms of policy, history or other countries’ tax systems.
